Client Hospitalization Tracking Report

Third Quarter 2024
July – September

This report is provided in compliance with RCW 71A.12.360 and represents only those DDA clients who received residential habilitation services from certified residential service providers (Supported Living (SL) and State Operated Living Alternative (SOLA)) and were taken or admitted to a hospital. The report does not include hospitalization data beyond SL/SOLA.

Information in this report reflects data from July to September 2024. It is not a year-to-date roll-up.

Data provided in this report:

- Number of clients taken/admitted to a hospital with a medical need and unable to discharge once the medical need was met.
- Average length of stay for clients who remained in the hospital after they were cleared for discharge and their barriers to discharge.
- Number of clients taken/admitted to a hospital without a medical need.
- Location (county) prior to admission to an acute care hospital.
- Type of provider prior to admission.
- Discharge location (county)
- Type of provider at discharge
- Number of SL/SOLA provider termination and reason for termination notice.
