R3 ONLINE TRAINING

DEVELOPMENTAL DISABILITIES ADMINISTRATION

CONTINUING EDUCATION TRAINING

Washington State
Department of Social & Health Services

DDA Developmental Disabilities Administration

| May 29, 2025 | 9 AM to 12 PM | 3 CEUs |

Data Collection and Documentation

Supporting individuals with Neurodevelopmental Disorders and/or mental health issues can require unique and individualized supports. This course will provide an introduction to what data collection and documentation means and looks like. Participants will understand that data collection and documentation is frequently based on:

- Observing a behavior of another person
- Identifying the trigger(s) for that observed behavior
- Identifying the functionality of that behavior (what did the person want to communicate and achieve by using that behavior?)

Participants will be introduced to tangible tools for data collection methods and practice, as well as looking for patterns of behavior and skills utilized.

Presented by Edward Fischer, PsyD

Dr. Fischer has worked 21 years with individuals with developmental disabilities and Autism. He works for the Developmental Disabilities Administration in Region 3 with the Regional Clinical Team. He is also associate faculty at two universities where he teaches clinical and forensic psychology and serves as dissertation chair and committee member.

*This training will be presented virtually and highly interactive. Participants should have the ability to access the ZOOM platform.
